

## Mid-term paper project for Philosophy of Risk

Attendants who need credits from this class are asked to submit a proposal for the term paper. 単位の必要な方は期末レポート term paper のための計画書 proposal を出してください。

### 1 the term paper

The term paper you are going to write shall discuss a concrete social example in which risk estimation or management is at issue (such as accident, safety management of food etc.), analyzing the case using various viewpoints from philosophy, psychology, STS etc.

### 2 The content of the proposal

The proposal should include:

- short description of the case you want to write about
- tentative ideas on how to analyze the case
- list of the books and articles you are going to cite

### 3 The format of the proposal

-The proposal ( and the term paper, for that matter) can be either in English or Japanese.

-There is no limitation on the length of proposal. 2 pages in A4 paper should be enough, though.

### 4 submitting the proposal

Due date

At the class of June 9th. Please be ready to speak a little bit about your plan in the class so that others can give you feedback.

If you cannot attend the class that date, you can also submit the project via e-mail (by 5 PM of the day). I will respond to you on receipt of the e-mail (tiseda@bun.kyoto-u.ac.jp); if you do not receive my response, please assume that your message did not go through.

-

## 5 Suggestions on finding resources

There is a website on philosophy of risk

<http://www.infra.kth.se/phil/riskpage/>

To find out journal papers on risk, “google scholar” is fairly useful.

<http://scholar.google.co.jp/>

To find philosophical papers, you can use Philosopher’s Index from computers within Kyoto University

<http://edb.kulib.kyoto-u.ac.jp/dbj/P.html>

(follow the link to “Philosopher’s Index” from the above page)
